Ashish Kumar

B.Tech | CSE (4th year)

I am a Full Stack Web Developer and likes to integrate AI or ML Projects over the Web pages for the Deployment, I have keen interest in the field of Artificial Intelligence and Machine learning, looking forward to see carrier at this Domain. With a growing mindset, always excited to learn and explore New Technologies. Priority is to focus on the knowledge and have the ability to learn things quickly. I am a hard working person who is also good at Time Management.

EDUCATION

Class X & XII | CBSE
Central Public School

04/2016 - 04/2019   *Samastipur, Bihar*

B.Tech | CSE
Maharaja Agrasen Institute of Technology

08/2019 - Present   *Rohini, New Delhi*

WORK EXPERIENCE

Full Stack Web Developer
Verzeo

03/2021 - 05/2021

Achievements/Tasks

- Completed the Training on HTML, CSS, Bootstrap, Django using Python!
- Done one Minor Project on creating a Web Page using HTML, CSS, Bootstrap!
- Done one Major Project as a Frontend Developer on " HUMAN SKIN TONE DETECTION".

IBM Hack Challenge 2021
IBM

07/2021 - 09/2021

Achievements/Tasks

- Exposure about various technologies such as IBM Cloud, IBM Watson Assistant Service, IBM Cognos Analytics, IBM Watson Studio.
- Working on Super Predictor of Indian Premier League (IPL) using IBM Tools.
- Made to Top 30 Teams for the Finals for Final Presentation.

Artificial Intelligence Internship
Smartknower

07/2022 - 09/2022

Achievements/Tasks

- Get the training on complete Python Basic an AI training includes ML(Machine Learning), DL(Deep Learning), Tensorflow, Keras, ANN(Artificial Neural Network), CNN(Convolution Neural Network), ImageNet, YOLO.
- Completed Minor Project on Handwritten Digit Recognition with Streamlit Deployment and Major Project on CIFAR10 Images.

SKILLS

C++   Python   HTML   CSS   Java   Bootstrap

Visual Code   JavaScript   Django   Github   ML

OOP   Artificial Intelligence   ANN   CNN

PERSONAL PROJECTS

My Web Project ⤢
- Web Project using HTML CSS

Advanced Rock Scissor Paper Game ⤢
- Created a Rock Paper Scissor Game using Html, CSS, JavaScript.

Digit Recognition using AI ⤢
- Completed a Project on Handwritten Digit Recognition with Streamlit Deployment.

Diabetes Prediction ⤢
- Diabetes Prediction using Support Vector Machine(Machine Learning) with Streamlit Deployment

20 Machine Learning Projects ⤢
- 20 Machine Learning Projects with python Script file and code.

CERTIFICATES

Full Stack Web Development (03/2021 - 04/2021) ⤢

Getting Started with Python (Coursera) ⤢

IBM Hack Challenge 2021 (07/2021 - 10/2021) ⤢

Artificial Intelligence Internship (07/2022 - 09/2022) ⤢

Udacity Nanodegree Graduation Certificate ⤢
